【写作 第2套】

Directions: For this part, you are allowed 30 minutes to write an essay on *the use of PowerPoint(PPT) in class*. You should write at least 120 words but no more than 180 words.

the Use of PowerPoint(PPT) in Class

With the development of information technology, it is bringing reforms into modern education. As a typical application, the use of PPT in class is becoming increasingly popular.

As we know, every coin has two sides. On one hand, the use of PPT in class expands knowledge and makes teaching easy, wonderful and vivid. In place of complex explanation output by teachers, show of text, sound, image and video in PPT stimulates students' interests and help them understand intuitively especially in face of abstract concepts. Lesson study becomes more effective and interesting for students.

On the other hand, relying too much on PPT weakens teachers' ability. Many teachers read PPT directly lacking communications with students. Besides, some design of PPT is overwhelming which distracts students' attention.

As far as I am concerned, PPT is just a kind of teaching assistant. Teachers is expected to use it appropriately rather than pursuit its effects excessively.
